

ORBIT to Showcase Innovative Aeronautical Telemetry Solutions at the International Telemetry Conference & Expo

Las Vegas, NV, October 24, 2011 - [ORBIT Communication Systems, Inc.](http://www.orbit-cs.com), a provider of mission-critical connectivity solutions in a variety of markets, including satellite communications, tracking and telemetry, and communications management systems, will showcase its tracking and telemetry solutions at the [International Telemetry Conference \(ITC\) & Expo](#). The premier forum and technical exhibition for telemetry professionals, students, and the industry's leading companies, ITC runs from October 24-27, and will be held in Las Vegas, NV.

At the conference, ORBIT will present a wide-ranging portfolio of aeronautical telemetry tracking antennas, including the company's:

- Advanced AL-4000 Antenna Control Unit (ACU), an indoor unit designed to control overall tracking antenna motion, display position, and tracking of data
- A new L/S/C Tri-Band feed, which provides a state-of-the-art solution for simultaneous operation in multiple telemetry and satellite communication frequency bands
- An upgrade and refurbishment program for legacy telemetry systems.

ORBIT's tracking and telemetry solutions address the communications needs of aircraft and missile flight test, space launchers, and unmanned air vehicles (UAVs). The solutions are designed for the most severe environmental conditions and support the high dynamics required for close range telemetry, including ground and maritime platforms. ORBIT's Aeronautical Telemetry suite will be on display at ITC in booth #203.

About ORBIT Communication Systems

ORBIT is a global provider of highly engineered mission-critical communications systems and solutions for maritime, aerospace, and earth observation applications in commercial, defense and homeland security markets. Our portfolio includes mobile Satellite Communications systems, Tracking & Telemetry solutions and Communications Management Systems which are deployed on thousands of marine, airborne and ground platforms worldwide. ORBIT's customers include over 20 Navies, major integrators such as Airbus Military, Boeing, Lockheed Martin, Northrop Grumman and Rockwell Collins, communications service providers such as SELEX Communications and Telespazio
